

# Police to arrest suspect after hospital release

At press deadline, Chesterfield police are keeping mum on a suspect they plan to arrest after he is released from a local hospital. The suspect suffered a self-inflicted gunshot wound on Mar. 25 after he fled from police at 1:30 p.m. He was later found wounded while hiding in some nearby bushes.

According to the police report, the suspect allegedly broke into his girlfriend's apartment in the 7500 block of Marbrett Drive near Boulders office park. While inside the apartment, he held a knife on another female and demanded that she tell him where his girlfriend was. The woman fled the apartment and called the police.

# My Bank

## Central Virginia Bank

Finding one bank to handle all the needs of our family was very hard. We needed ID theft protection, check writing, debit cards, credit cards, phone banking, great customer service, monthly statements, text messaging to notify us of over drafts on any account, auto bill pay, online banking and we wanted it all free. We also wanted a bank that got to know us. And most importantly teach all of us how to use online banking. Many banks offered some of these items but none had all of these features and the great service we found at CVB. Plus they always seemed to be open when we needed to visit the branch. CVB made banking easy by serving all of our unique family needs. And it is all FREE.
