

# Soar and explore at the Chesterfield Regional Air Show

*Crowds recently gathered at the Chesterfield County Airport for the 2007 Chesterfield Regional Air Show. The event featured stunt pilot Patty Wagstaff, remote-controlled aircraft and a classic Mustang car show. The Iron Eagles (above) gave an exciting performance for the crowds. Davis Kammerer (left) and other children had the opportunity to meet pilots like Jim Callear. Vintage aircraft including this World War II fighter (bottom left) were on display. Nick Danforth (bottom right) and his children, Emma and Chance, were one of the many families who attended the show. (Photos by Ash Daniel)*
